

## The Ergonomically Correct Economically Priced Computer Mouse

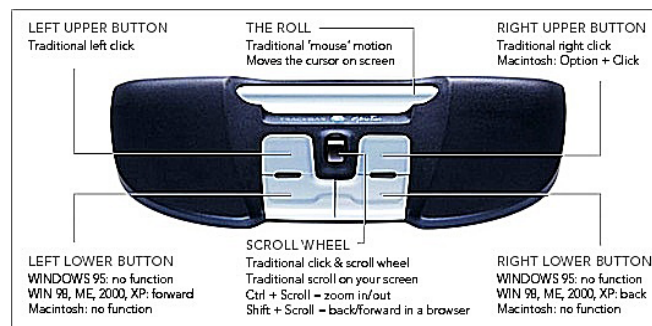

### WINNER OF THE "BEST PRODUCT" AWARD AT THE 2007 NATIONAL ERGONOMICS CONFERENCE & EXPO

The ergonomics, aesthetics and engineering of the Trackbar Emotion are integrated with attention to detail so that that all areas of the design share equal importance. It's designed to prevent your suffering from Carpal Tunnel Syndrome (CTS) and Repetitive Strain Injuries (RSI). Used in front of your keyboard, you never have to use your arm to reach out or twist your wrist to mouse. If you're suffering from CTS or RSI, Trackbar Emotion™ it will help rehabilitate you in a matter of weeks.
